WHAT IS DISABILITY?

Definitions of International Classification of Impairments, Disabilities and Handicaps (ICIDH)

- Impairment is any loss or abnormality of psychological, physiological or anatomical structure or function.
- Disability is any restriction or lack (resulting from an impairment) of ability to perform an activity in the manner or within the range considered normal for a human being.
- Handicap is a disadvantage for a given individual, resulting from an impairment or a disability, that prevents the fulfillment of a role that is considered normal (depending on age, sex and social and cultural factors) for that individual.
